

24/7 UNATTENDED FLOWER RETAIL

The Lynxtill Fresh Flower Vending Machine

A refrigerated, touch-screen flower shop that sells beautiful bouquets around the clock — with secure card payments and a cloud platform to run it all.

- ✓ **22" touch screen & 11 chilled compartments** for a full range of bouquets.
- ✓ **Tap or insert any bank card**, contactless, mobile wallet or QR — powered by Lynxtill.
- ✓ **Kept fresh at 4–25°C** with anti-fog glass and LED display lighting.

Lynxtill LX-BLOOM-11 — single cabinet.

Select. Tap. Bloom.

Why operators choose it

Sell 24/7, unattended

Open every hour. The machine sells bouquets day and night with no staff on site — turning footfall into round-the-clock revenue.

Keeps blooms fresh

Precision refrigeration (adjustable 4–25°C) with a temperature sensor, a double-glazed anti-fog window and ring LED lighting keeps flowers vivid and sale-ready.

Pay any way — powered by Lynxtill

Backed by Lynxtill's payment expertise: tap or insert any bank card, credit, contactless, mobile wallet or QR — fast, secure and reliable.

Guaranteed dispense

A drop sensor confirms each bouquet is delivered before the customer is charged — no disputes, no manual refunds.

Manage it from anywhere

Track sales, stock, temperature and faults from your phone or PC, get low-stock alerts, and change prices remotely across every machine.

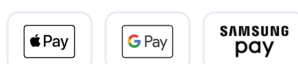

Built to last, easy on power

High-strength, fully-insulated powder-coated cabinet with an energy-efficient compressor and eco-friendly refrigerant (RoHS compliant).

CARD PAYMENTS ACCEPTED

MOBILE WALLETS ACCEPTED

The machine at a glance

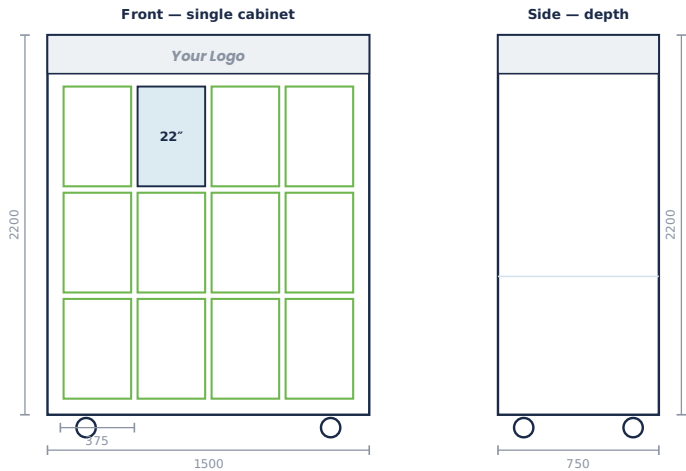

Model	Lynxtill LX-BLOOM-11
Display	22" HD touch screen
Compartments	11 (single cabinet)
Temperature	+4°C to +25°C (adjustable, sensor)
Dimensions H×W×D	2200 × 1500 × 750 mm
Max power	600 W
Power supply	220–240 V AC, 50 Hz
Cooling	Modular; eco refrigerant (R290 / R134a); RoHS
Payments	Bank card, credit, contactless / NFC, mobile wallet, QR
Management	Cloud platform — PC / phone / tablet
Customization	OEM / ODM available

Anti-Fog Clarity. See the True Beauty.

A double-glazed, anti-fog window with an embedded heater keeps the glass crystal-clear, while air-cooled refrigeration (4–25°C) and ring LED lighting show every bloom at its best.

Dimensions & layout

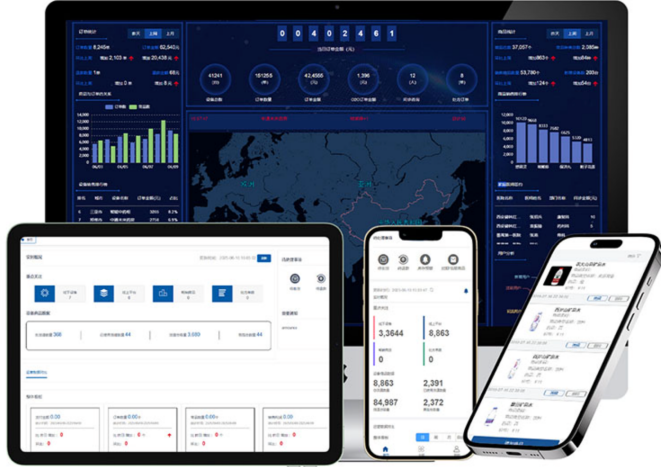

★ Your logo on the machine — full OEM / custom branding

All dimensions in mm · 22" touch screen · single cabinet.

Total Remote Management

Monitor machine health, access live sales data, and receive instant restocking alerts — all from one centralized dashboard.

- ✓ **Real-time status & alerts** — online/offline, temperature and fault notifications for every machine.
- ✓ **Inventory & low-stock alerts** — know what's selling and when to restock — before you sell out.
- ✓ **Sales analytics** — revenue by machine, product and day, exportable to CSV / Excel.
- ✓ **Remote pricing & promotions** — change prices or run offers across the fleet from one screen.
- ✓ **Cash & cashless reconciliation** — every transaction tracked and matched.
- ✓ **Manage from PC, phone or tablet** — Local support base in North America.
