LT13

A 13.3" Windows 10/11 POS that runs the software you already sell — no rewrite, no emulation. The tablet lifts off its magnetic pogo-pin base for line-busting and pay-at-table, then docks back to full counter I/O.

WHERE IT WORKS

One terminal, counter to floor

- ✓ **Café & quick-service** — undock at peak to bust the line, dock back to print and cash out.
- ✓ **Specialty retail** — scan on the shelf for price checks, stock counts and receiving.
- ✓ **Full-service dining** — take the order and the payment at the table on one device.
- ✓ **Pop-ups & events** — battery plus Wi-Fi means a stand needs power only to charge.
